VOLUME XVI. ALBANY, ALAMEDA COUNTY, CALIFORNIA FRIDAY, OCT. 20, 1950 Number

Excerpts From The Avenues By GENE EPLER

Better take a good look at Albany Hill for we hear it might not be with us much longer. . . . In fact, one of these fine mornings — fog permitting — you may look out and see the upper portion of the hill transformed into a gentle sloping plain in the direction of El Cerrito. . . . Dudley DeBliss of Piedmont and his associate, C. D. Henry, owners of most of the property, filed for an alteration permit at the City Hall Wednesday to remove six million cubic yards of earth. . . . Owners of most of the earth would be required by the State Highway Department to fill in tide lands for the widening of East Shore Highway. . . . The applicants proposed that the southerly portion of the hill encircled by Gateview Ave. and Castro St. be left untouched, but commencing at the saddle, which separates the southern portion from the northern and larger section, remove sufficient earth so as to convert the entire hill into a sloping plain. . . . Upon completion, the property will be subdivided in accordance with city zoning laws and necessary soil reclamation for gardens and lawns. . . . DeBliss and Henry believe the proposed development will add an attractive subdivision to the city, and incidentally, provide additional revenue from municipal taxes.

We hear Albany Fire Chief Fred Pimentel and Chief Bill Meinheit of Berkeley have something in common other than heading their respective fire squads and being big rotarians. Both roll their own cigarettes. . . . They say F'nian Domestica De Giglia calls this column the "Experts from the Avenues" It'll better be the little old lady who calls us the "poor man's Herb" Actually, we're not qualified as an expert just yet. . . . You see, we've never predicted a Presidential election or given out the word.

Albany and El Cerrito Rotarians will hear Lt. Gov. Goodwin S. Wright Monday in a luncheon meeting at the local Vet. Bldg. . . . Cecil Lavers is chairman. . . . The Albany club heard all about the Reber Plan—"greatest project ever conceived"—in an address this week by Henry E. Tyee of Oakland. The plan, as most of you know, calls for the construction of earth-rock dams across the upper and lower San Francisco Bay, thus creating fresh water lakes. . . . Atop the wide dams would be room for every automobile, suburban and rail line need. . . . The plan, according to Reber, could be built quicker than a bridge, and at a cost not much more than an inadequate bridge. . . . Tweed was introduced by Dick Thomssen.

A pint of your blood may soon be winging its way to the Korean front to aid some wounded serfman—but it's up to you. . . . Gen. A. C. Wedemeyer stated in a letter to the local Red Cross: "United Nations advances in Korea means casualties—wounded losing their blood on the battlefield. Thousands of pints of whole blood and plasma are urgently needed. I ask all who are able to give blood through the Red Cross."

Albany donors are requested to Alameda County Medical Association, GLencourt 2-2840.

Bob and Kay Fritz are celebrating the fifth anniversary of their Kay Gift Shop, 1389 Solano St., this Friday and Saturday. . . . An exclusive special for the two-event is "Switchabouts" by bridge, as adv. in Nov. issue. . . . Women's Home Companion. . . . Denials will be given to visitors in the shop.

Albany Legion's newly organized guard made their first appearance in snappy new uniforms Wednesday at the 10th Dist. meeting in Emore. Albany's Don Karns is sgt.-at-arms and the guard is made up of LeRoy, Holland and Waters, color bearers, with George Mack Jr. and Jerry Hall armed guards.

Albie West Jr. (his picture appeared on page 1 of last week's issue) brought his "Lady West I." to last Sunday in the Oakland-Alameda Speedboat Marathon. He won several trophies, ribbons and

City Councilmen Undecided About 'Caucus' Meeting

Albany City Councilmen today were considering the tapping of additional sources for city revenue in the form of extra taxes on the race track and a tax on vending machines.

The Council Monday night in a relative quiet session instructed City Atty. Edward R. Plotner to make a legal survey of the tax proposal made by Councilman John C. Longaker.

Based on a tax plan now used by Berkeley, Councilman Longaker proposed that a \$100 per day tax be imposed on the race track during racing season, and that vending machine operators or distributors be taxed on machines placed in Albany. The yearly fee would be \$1 per year for one-cent slots and \$2 for five cents and over.

Longaker said the proposed revenue from the race track would be in addition to the admission tax now imposed by the city on each ticket.

Also on the Council's "study list" is a proposal of Councilwoman Mrs. Kathie Zahn, who requested that a public "caucus" session be held during the week so that department heads could inform the Council of work in their departments.

Councilman Jerome Blank favored the meeting with department heads, but said once or twice a month would be sufficient.

Mayor Frank C. Graeber and Councilman Raymond Cleary both indicated they preferred a brief meeting of the Council before the regular session Monday night. Mayor Graeber pointed out that meetings like Mrs. Zahn proposed had been tried in the past without success.

Councilman Longaker was opposed to any pre-meetings of the Council.

"I don't believe the Council should come in with a decision all thrashed out. The public has a right to know how each decision is made," Longaker said.

In other business, the Council authorized notices be sent to property owners in built-up districts requesting the voluntary repairing or construction of curbs and sidewalks.

Councilman Blank said most of the property was owned by people residing outside of Albany.

Mayor Graeber announced that the next meeting would be held on Friday October 27, in order that city officials may attend the League of California Cities meeting in Los Angeles the first of next week.

A husky-growing Albany youngster—the MacGregor PTA—celebrated its second birthday last night with a gala evening of canasta, folk dancing and pot-luck dinner at the school.

Mrs. Foot, membership chairman announced that the PTA "went over the top" 100 per cent in the fall membership drive.

First animal to enter the 100 per cent circus tent was the lion, representing Miss Margaret Plosser's high first and low second graders. The tiger, Mrs. Marjorie Saylor's third grade class, came in second. With approximately 170 children attending MacGregor School, total PTA membership to date is 200.

The unit has started work on its chief money-raising project of the year, the third annual turkey whist to be held November 10 at Albany High School Gym. Mrs. McGimpsey, chairman, announced that tickets are now on sale. She said the children will receive five cents for each ticket sold.

School Program Discussed at Marin PTA Meet

"Information Please" was the topic discussed by Principal Eugene Baker and Arnold Pagano, seventh grade teacher, at the first general meeting this week of the Marin PTA.

Speaking on "Know Your School," Baker pointed out to members that at present time the State has the highest migration rate in history of school population. In spite of this, he said, the average IQ of Marin students has remained constant for the past 13 years.

Baker said that the "reading readiness tests" have shown as an average boys mature later than girls; that smaller statured boys are ready to read earlier than the larger boys.

The grading system is based on the child's achievements in relation to his ability," he said. "Extra curricular activities play an important part at Marin. There are about 450 students participating in varied activities as student leader, Red Cross, Junior Police, orchestra, Stamp Club, Art Club, Brownies, Scouts, Cubs and others.

Pagano's discussion largely concerned the physical education program, and after school athletic activities at Marin.

"The ultimate aim of the program is physical, social and mental growth," Pagano emphasized. "Children are systematically rotated in positions of all games in order to give each the opportunity to learn the skills and techniques of various sports."

Evening School Offers Special Photo Class

Photographers interested in camera work, either as a hobby or profession, are finding interest in the intermediate and advanced photography classes at the Albany Adult Education Center according to Robert G. Dennis, principal.

Instructor for the course is Walter Bunnell, who for a number of years instructed professional photography in Los Angeles and Hollywood.

His background and experience in portrait, illustrative and commercial photography are available to students in the class at Albany Adult Education Center.

Principles of pictorial photography, including composition and design, print quality, and various processing controls are dealt with in the class. Frequent camera sessions are held where models are present to pose for students.

This class meets on Monday evenings from 7:15 to 10:15 p.m. at the Albany High School. A few additional enrollments are now open. Registrations are taken in the main office on the evenings that the class is scheduled.

Not because of any extraordinary talent did he succeed, but because he had a capacity on a level for business and not above it.

New faculty members at Albany High School for the fall semester are (front row, left to right) Katherine Butts, Carolyn Javaher, Broxton Henderson and Phillip Elwood. Back row, Roger Smith, Robert Humpert, Paul Williams, Albert Lee and D. Williams.

A little thought and a little kindness are often worth more than a great deal of money.—Ruskin.

'The Way to Fulfill God's Purpose' Is Christian Science Lecture Topic

"Christian Science: The Way to Fulfill God's Purpose" was the subject of a lecture given by Grace Jane Noye, of Chicago, at the Second Church of Christ, Scientist in Oakland last Saturday evening.

The lecturer spoke substantially as follows:

"Christian Science recognizes and acknowledges God as the only cause, the only creator—as omnipotent Spirit or Soul, as omniscient Mind or Principle, as omnibenevolent and eternal Life—the All-in-all, in whom is nothing unlovely, nothing afflictive.

This is the Christian Science concept of God, from which His good purpose is deduced.

God has made no provision for mistakes or unhappiness. He has made provision for everything good and necessary for our complete happiness and well-being. Mortal man thinks himself into all sorts of mistakes, but through God's law he is delivered from them. In her book "Unity of Good" (p. 64), Mrs. Eddy makes the comforting statement that "mortals . . . can never turn back what Deity knoweth, nor escape from identification with what dwelleth in the eternal Mind."

This Mind is God, and God is Love, our Father-Mother, and we are His beloved children.

The Bible

Christian Science has its roots in the Bible—the King James Version of the Bible.

Mrs. Eddy's Discovery

Mary Baker Eddy is recognized not only as the Discoverer and Founder of Christian Science and its forever Leader, but also as a great prophet and revelator.

Mrs. Eddy was a well-educated and experienced writer, and she was well acquainted with the Bible.

This final and complete revelation of the Christ, Truth, is set forth in her book "Science and Health with Key to the Scriptures."

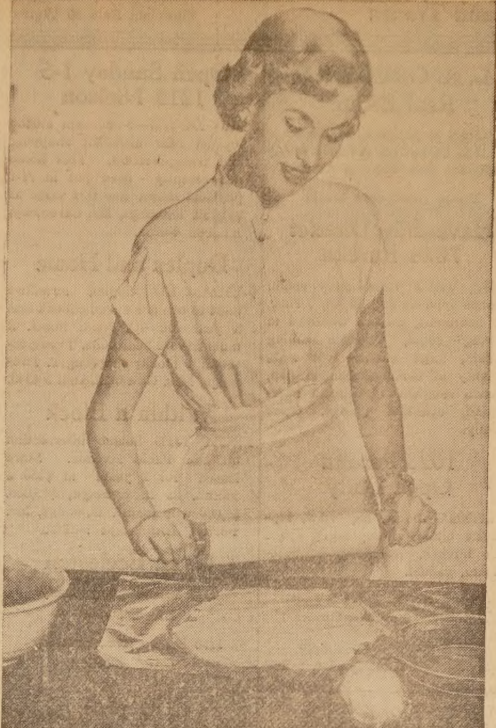

Concerns about Matter Are Changing Rapidly

Christian Science has prepared us all for what is going on in the world today. Jesus prophesied, and Christian Science explains, what Mrs. Eddy terms "the incredible good and evil elements now coming to the surface" (Science and Health, p. 831). Christian Science has revealed an all-inclusive refuge for everyone in our Father's house of "many mansions, many welcomes, many pardons for the penitent" (Miscellany, p. 133).

This house is the consciousness of God. In this house we are safe from fear or harm under the universal and loving government of God.

In this complete and perfect government of God, there is no cause for fear and no one has the capacity to fear. We are always consciously at one with God, identified by Him, identified with Him, necessary to Him, and classified by Him. And He hath done all things well!

Walter Hanahan Receives Eagle Scout Award

Walter Hanahan, Albany High School senior, today held the Eagle Scout award after a Court of Honor conducted by Troop No. 42 at Martin School last Friday evening.

The presentation was made by William M. Pursell, advancement committeeman for the Scout Council. The Knights of Dunamis, Eagle Scout fraternity, officiated at the ceremonial presentation under direction of Lew Seidlitz, chairman.

Hanahan, son of Mr. and Mrs. W. E. Hanahan, of 844 Ramona Ave., has been in Scouting for the past eight years. He was awarded a special medal by Albany Fire Chief Fred Pimental two years ago for his "quick thinking which saved greater fire loss at a Solano Ave. store."

Hanahan is junior assistant Scout master of Troop 42, sponsored by Marin Dads' Club.

Also honored at the Friday meeting was Scoutmaster Eugene Hellwig, who is soon returning to active Navy duty. Asst. Scoutmaster Robert T. Rogers will head the troop during Hellwig's absence.

Charles Anderson, former scoutmaster, was in charge of arrangements.

A dinner was served following the presentation by the Mothers' Club, under direction of Mrs. William McGimpsey, president.

We would like to announce that the television set was won by Mrs. Roberta Kilgore, of 4835 Shafter Ave., Oakland, and the table model radio was won by Larry Cassell, a student at Cornell School.
